

April 26, 2009

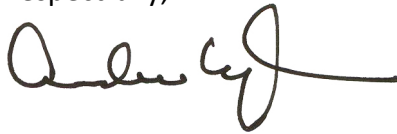

To Whom It May Concern:

Brycen Davis has worked for Dubai American Academy as an Information Technology Teacher's Assistant for the 2008-2009 academic year. While under my supervision, his responsibilities have included the daily instruction of parts of the KG1 curriculum, maintaining the network and computer stations in good working order, along with team teaching the grade 2 and 3 IT curriculum here at Dubai American Academy.

Brycen's extra-curricular activities have included working on the Yearbook committee, Tech Connections and the Green Team. I have found Brycen to be a willing participant in all new initiatives put forth at DAA and his flexibility in working at different grade levels will serve him well in his desire to become a teacher.

I would recommend Brycen for a position with your organization. If I can provide any further information for you regarding Mr. Davis please do not hesitate to contact me.

Respectfully,

Andrew Hughes
ES Assistant Principal
